Lumion Pro 8 In addition to standard and Pro versions, there is also the US\$499 Lumion Pro 8. Lumion provides an extensive set of features to enhance productivity and efficiency. As a result, you can spend more time designing, and less time rendering. Lumion's feature set is designed to help you choose a render solution that best suits your specific needs. Learn more about each and then take advantage of the features you find most useful to your specific workflows. Launched in 2007,

Lumion is a comprehensive, yet easy-to-use 3D rendering program for architects and interior designers. With powerful, flexible features, Lumion enables you to create stunning visual effects from 3D architectural models. The resulting images can be delivered to clients and show them your design plans and perspectives in stunning detail. As a professional option, Lumion Pro includes special effects and realistic materials that mimic the fine details of real-world materials like stone, wood, and plastics. The

ease-of-use interface makes the entire process fun and simple. With the new Lumion LiveSync for ArchiCAD package, Lumion Pro provides valuable tools for communication between your design and render sequences. The LiveSync for ArchiCAD plugin for Lumion 8 enables 2D and 3D CAD models to sync their colour, materials and lighting with Lumion's environment. Experience rich, dynamic visuals in your design studio. The various image effects and materials in Lumion Pro 8 make your design

planning and rendering process fun, productive and efficient.

Features Create stunning 3D animations & animations with realistic materials. Mimic real-world materials like stone, wood, and plastics. Pose, light and animate objects in a 3D environment. Show lighting calculations for a more realistic result. Create and animate different materials in your design and add them to your design scene. Sep 23, 2019 Lumion 9 Professional Edition available!
